**BELL Julianne**

In memory of Julianne, a  
true Melbourne icon and  
admirable woman. A  
fearless defender of  
public lands and public  
open space, so often  
threatened with loss and  
alienation from the public  
realm.

A great communicator  
and mobiliser of  
like-minded people and  
community groups.  
Julianne you will be sorely

**BELL Julianne**

I lament the sad loss of Julianne Bell, my friend, one of  
the greatest carers of Victoria and lover of this state's  
beauty and history. She fought against all who tried to  
further destroy or dismiss the wonderful history and  
growth of Melbourne and Victoria. Never will Royal  
Park return to the beauty she fought so long to save.

Her fight for our recently destroyed historic elms  
exemplifies her caring. We may never know whose  
decision caused their crass death.

I remember for ever the 1990s, as Julianne and I  
fought together to save Mont Park. This hospital for  
our seriously mentally ill (SMI) was, indeed, the best  
hospital which has ever been given to our SMI in the  
last 30 years. Mont Park had fine buildings, many  
trees, beautiful grounds and gardens. This was my  
daughter's first, and only, comfortable shelter for her  
mental illness. Never again did she find such peace  
and the very best of psychiatric care.

Julianne fought desperately, in every way she knew, to  
stop the sale of Mont Park in order for it to be used  
for the Games coming to Melbourne. Our SMI and  
Julianne lost. I am eternally grateful that she showed  
such courage and caring. Those who destroyed this  
refuge for our SMI did not.

Julianne kept rising, year after year, to continue to fight  
for our history, our state's beauty, our Victorians.

*Rest in Peace, dearest Julianne.*
